

North America Quick Response Program Pump Impellers

Flowserve Pumps has increased production capacity to meet customer demands for immediate delivery of impellers. Impellers are cast and manufactured to the latest OEM specifications to ensure mechanical integrity, proper metallurgy and high-efficiency performance. Dedicated impeller manufacturing capabilities from Flowserve ensure quick turnaround for the most common pump types and materials to keep your plant running efficiently.

One-Week Program

- Impellers machined to customer-specified diameter and shipped within one week
- Wear rings, when ordered, qualify for one-week turnaround; shipped mounted
