

Durco® Pump Maintenance Pack C

Factory-Assembled Shaft Cartridge

Pack More Life Into Your Pump

Pump Pack C

Includes: Shaft; bearings; locking hardware; bearing carrier; carrier O-rings; carrier screws; retaining ring; shaft key; isolators

The shaft assembly is the backbone of your pump. It is the key to pump reliability. Now you can replace and even upgrade this vital component in less time than you ever thought possible with the Durco Pump Pack C replacement shaft cartridge. Plus, the factory-assembled shaft cartridge replaces 15 separate parts with just one.

Assembled in a clean room to strict Flowserve OEM quality assurance standards, these shaft cartridges are guaranteed to fit precisely, run true and perform with maximum reliability. They are available in several stainless steel materials and solid shaft or friction welded construction to suit your operating requirements and preference.

Decreased Downtime, Increased Reliability

Durco Pump Maintenance Packs significantly simplify maintenance while assuring maximum reliability and extended mean time between repair (MTBR). In addition to the Flowserve OEM promise of quality assurance with correctly fitting parts, Durco Pump Maintenance Packs provide:

- **Simplicity**
 - Routine maintenance couldn't be simpler. The factory-assembled shaft cartridge significantly reduces maintenance tasks and times. Just think, no return trips to the stockroom for a forgotten or mis-sized part.
- **Economy**
 - With Pump Pack C, there is only one part number to track. Inventory levels and associated costs, the number of suppliers and the administrative burden are all instantly reduced.
- **Reliability**
 - It's all about increasing uptime. Durco Pump Maintenance Packs make it easy to restore ASME (ANSI) pumps to prime operating condition—fast.

Pump Pack C

Includes: Shaft; bearings; locking hardware; bearing carrier; carrier O-rings; carrier screws; retainer ring; shaft key; isolators

Part Number	Description
M3GP1KSC-316	Mark 3 Group 1K with Solid 316 Stainless Steel Shaft
M3GP1KSC-ZH	Mark 3 Group 1K with Friction Welded Steel/316 SS Shaft
M3GP1KSC-ZC20	Mark 3 Group 1K with Friction Welded Steel/Alloy 20 Shaft
M3GP1KSC-2205	Mark 3 Group 1K with Solid Duplex Stainless Steel Shaft
M3GP2KSC-316	Mark 3 Group 2K with Solid 316 Stainless Steel Shaft
M3GP2KSC-ZH	Mark 3 Group 2K with Friction Welded Steel/316 SS Shaft
M3GP2KSC-ZC20	Mark 3 Group 2K with Friction Welded Steel/Alloy 20 Shaft
M3GP2KSC-2205	Mark 3 Group 2K with Solid Duplex Stainless Steel Shaft
M3GP3KSC-316	Mark 3 Group 3K with Solid 316 Stainless Steel Shaft
M3GP3KSC-ZH	Mark 3 Group 3K with Friction Welded Steel/316 SS Shaft
M3GP3KSC-ZC20	Mark 3 Group 3K with Friction Welded Steel/Alloy 20 Shaft
M3GP3KSC-2205	Mark 3 Group 3K with Solid Duplex Stainless Steel Shaft
